what a ♥♥♥♥ing screwjob. You should play Fruit of Grisaia before picking this one up. It's not mandatory but you will be confused as hell if you don't.

Labyrinth of Grisaia tells the story of protagonist Kazami Yuuji's enigmatic past. It covers up almost everything that has happened to him from a young age to present day when he ended up as a student in Mihama Academy.

By playing all of the routes in previous game you were left with a lot of puzzle pieces about his past. By playing the Cocoon of Caprice chapter you will relive some of the quite awful moments of his life. How he ended up as the legendary 9029 and much, much more

There also is a playable route for every girl that picks up where Fruit of Grisaia left. The "Fan service" routes were amazing counter balance to the darker Cocoon of Caprice chapter and I would recommend playing them after playing through Yuuji's past.

There are also about 30 short skits that are about 5 minutes short.

Fruit of Grisaia would have worked perfectly as a stand alone game in my opinion, but if you are interested enough in Yuuji's past and rest of the Grisaia story feel free to pick this one up. It was an interesting read.. 10V10 would totally recommend. I could not get this to run. It's a shame because I really enjoyed the first game in the series.. Great fun! They are still adding many features so i feel like this is like a new game. Thumbs up!. This is a really interesting comic i ever read about the Half Life universe it tell the story really well i want to read more when the next chapter comes out and this is like Half life 3

Interesting game, you have to use your brain, i love games like these.

. This game is so ♥♥♥♥ing hard i love it. Only beat the first boss and had the 2nd one at 1 hit. It was so hard.. These Killing Floor characters really adds to the attitude to the game. The things these change are nothing really big except when you speak you get to see the character you are in the pop out picture. The other change you will see with these skins is on the left arm when you are holding the gun you will see a change in color and detail. It adds to your visuals not so much but affects how other people see you. They are fun to mess around with and change. I enjoy these character packs very much, I think they are fun to choose a character that fits your style of gameplay and your attitude in general. These character packs are for other people's benefit and not just your own so if your expecting a big change you will be disappointed. I would suggest picking up the character skins in the "Killing Floor Complete" with the base game in it or when you see them on sale individually. I have enjoyed using these skins as it adds more "Character" to the game.. Glad I didn't pay full price for this crap. one of the worse match 3 games I ever played.. Very nice. Not too killer. I like that. Just swap\walk the cubes across the floor in level 28.
